I took a course in Hallelujah
A                             D
  I went to night school for the blues
A                               D
 I took some stuff they said would cool ya, heh hah
A                             D
 But nothing seemed to light my fuse
```

```
        F#m         B         D                       E
But it's all in the past like a check that's in the mail
          F#m           B
She was a tall whiskey glass
          D                                           E
I was an old hound dog that just loved to chase his tail
```

```
          D        A      E                 B
Until I met a   blind man who taught me how to see, yeah
D        A           E
  A blind man who could change night into day
        D    A          E                 B
And if-a    I can, I'm gonna make you come with me, yeah
          D
Cause a-here comes the sun and we'll be chasin' all the clouds away
```

 Some thing are never what they seem
A                             D      F#m
 My heaven's turned into a landslide
B                             A    G
 Thank God I woke up from that dream
```

         D
Because a-here comes the sun and we'll be chasin' all the clouds away

E                 F#m       E                       D
  So please chase harder and drink all the flowers dry
         E                    F#m
We'll be savin' us a little money
       G                                            A
And if that doesn't do it, yeah, I know the reason why

                            D
Don't make no sense lightin' candles, ah
B                                     A     G
 There's too much moonlight in your eyes

        E      B      F#            C#
I met a   blind man who taught me how to see, yeah
E        B          F#
   Blind man who could change night into day
         E    B           F#                 C#
And if-a    I can, I'm gonna make you come with me, oh oh oh oh yeah

          E
Because a-here comes the sun, ain't no surprise

Ain't no doubt about it, gonna open up my eyes
